The Functional Mushroom Company LTD

8 Queen Street, Seaton, EX12 2NY, UK

Sample Information

Name: Cordyceps
Sample ID: 26060025-2
Batch ID:
Matrix: Concentrate
Lab Temp: 20 °C

04 Jun '26	Received	CQ
04 Jun '26	Extracted	CB
08 Jun '26	Analyzed	CB
08 Jun '26	Reported	CQ

Cordyceps Panel

Quantification of bioactive compounds found in Cordyceps (Cordyceps militaris), a functional mushroom associated with energy and endurance support.
Method: Functional Potency by HPLC

PJLA Testing Accreditation #133455

CORD

Compound	LOD (mg/g)	Result (mg/g)	Percent Result (%)
Adenine (hemisulfate)	0.0052 mg/g	0.2011 mg/g	0.020 %
Adenosine	0.0052 mg/g	6.4648 mg/g	0.646 %
Cordycepin	0.0052 mg/g	10.2903 mg/g	1.029 %
Hypoxanthine	0.0052 mg/g	0.0267 mg/g	0.003 %

Accreditations

Altitude Consulting is accredited to the **ISO/IEC 17025:2017** standard for testing laboratories.

A note on results at or above 100%

Sometimes an individual analyte or a calculated total comes back at or slightly above 100%. This isn't an error. Every quantitative measurement has a margin of uncertainty, and when a sample is very high in purity or concentration, that margin can push the reported value past 100%. Per our methods, accredited to the ISO/IEC 17025 standard and adhering to U.S. Pharmacopeia (USP) guidelines, we report values exactly as measured rather than rounding or capping at 100%.

Accreditations

Altitude Consulting is accredited to the **ISO/IEC 17025:2017** standard for testing laboratories.
